

1. What do you want to see?

Think about what you'd like to see during your travel. Check these categories in the table. I also left some categories empty in case you'd like to add something.

2. Which places do you want to see?

Grab a travel guide, research the internet or use other sources to determine places you'd like to see on your trip. Categories and rank them in the list below. Within each category you don't need to do a ranking for now. You can do this in step 3.

- | Must see - ★★★ | Like to see - ★★ | If I have enough time left - ★ |
|----------------|------------------|--------------------------------|
| 1. | 1. | 1. |
| 2. | 2. | 2. |
| 3. | 3. | 3. |
| 4. | 4. | 4. |
| 5. | 5. | 5. |
| 6. | 6. | 6. |
| 7. | 7. | 7. |
| 8. | 8. | 8. |
| 9. | 9. | 9. |
| 10. | 10. | 10. |

3. Tentatively travel route

Now we gonna start planning your travel route a bit more in detail. It will help you to find a efficient order of the destinations you'd like to go to avoid traveling back and forth to often. Below you'll find an area to add a little sketch. Just add a rough sketch of your travel destination. Take the places from the „Must See“ category above and add them to the sketch. Don't forget to add the numbers to the points in the map. While adding the spots to the map think about how much time you want to spend at certain places. This helps you to just add as much as places as you can fit into your travel time. In case you added all the „Must See“ places and still have travel time left, continue with the next category.
